

## Merry Christmas and Happy Holidays!

It is crazy to think that the holiday season is already upon us. The year has been busy and the time has flown by so quickly. It is amazing how the days can be so long, yet the months and years just fly by.

David and I are now halfway through our residency programs. David is in Family Medicine at Waukesha Memorial Hospital, and I am in Pediatrics at the UW American Family Children's Hospital.

This year we have gotten some vacation time together. On one of our vacation weeks we took a trip up to Door County. We had a terrific time seeing the sights, hiking, and relaxing together.

Pearl and Chloe are doing so well and continue to get along fabulously. We love them, and we are so happy we adopted them. They get into everything, but they are so nice to have around and are both sweet and snuggly.

Loki is enjoying Door Creek Stables. He even has a "girlfriend" in the herd; she calls for him whenever I take him out for a ride. I don't have as much time to see him as I would like, but when I do see him we have a blast riding around the arena or going out on trails.

*With Love,*

*~Katie, David, Chloe, Pearl,  
& Loki*
