

Merry Christmas & Happy Holidays!
2015

It's holiday season again and time for another annual Rebedew newsletter.

David and I are both busy in our third and final year of residency. We will graduate at the end of June and in August we will both start with Monroe Clinic. David will be a family medicine physician at their Albany location, and I will be a pediatrician at their Monroe and New Glarus locations.

We are in the process of buying a house. I am very excited to have a little barn and enough land to have a couple horses. I am very excited for Loki to live right in our backyard. Of course, I will have to get another horse so he has a friend. ☺

Right now Loki is still enjoying hanging out with his friends at Door Creek Stable. In the spring and summer he loves splashing in the puddles. He is 22 this year, but he doesn't seem to know it.

Our kitties, Chloe and Pearl, are doing well. They get along great and we are so glad that they have each other to play with when we are busy at work.

With Love,

~Katie, David, Chloe, Pearl, & Loki
